

Carpathian Convention Seminar on Education for Sustainable Development

16 -1 8 April 2019, Budapest, Hungary

The programme of the seminar should inspire networking and allow room and platform for intercultural and professional dialogue between participants.

In order to initiate intense exchange, the programme starts with a networking dinner.

The two-day program aims to offer input framing the theoretical and overall policy context in the form of keynote presentations and roundtables in plenary sessions.

The program intends provide in-depth discussions on the two strands of whole-institutional approach in ESD and educator ESD competences in specific workshops. On-site visits will enhance and augment the above by providing inspiration, practice-oriented learning opportunities and informal exchange of experiences.

DRAFT AGENDA
