Pursuant to Article 20 paragraphs 1<sup>1</sup> and 4<sup>2</sup> of the Protocol on Sustainable Forest Management (hereinafter referred to as “the Protocol”) to the Framework Convention on the Protection and Sustainable Development of the Carpathians (hereinafter referred to as “the Convention”), adopted by the Conference of the Parties to the Convention in Bratislava on 27 May 2011;

Welcoming the aim of the Working Group on Sustainable Forest Management to support the Parties to the Carpathian Convention towards their cooperation for the implementation of the Protocol and to give inputs based on their field of expertise and experience to formulate guidelines on the following;

Recalling the Ministerial Declaration of the Third Meeting of the Conference of the Parties to the Convention<sup>3</sup> and pursuant to Decision COP3/4 on Sustainable agriculture, rural development and forestry, in particular its paragraphs 2<sup>4</sup>, 3<sup>5</sup> and 6<sup>6</sup>;

Following the Terms of Reference for the Carpathian Convention Implementation Committee approved by the Bureau and endorsed by the Conference of the Parties to the Convention by its Decision COP2/13 on Programme of work and budget of the Carpathian Convention paragraph 5<sup>7</sup>;

Mandated by the above Terms of Reference, letter e)<sup>8</sup> to carry out the function to consider, develop and recommend strategies for the achievement of the objectives of the Convention; In order to ensure implementation of the provisions of the Protocol

The Carpathian Convention Implementation Committee recommends the following Strategic Action Plan for approval of the Bureau and adoption by the Fourth Meeting of the Conference of the Parties to the Convention, as follows:

Within the next 12 years the Parties shall undertake the following actions:

---

<sup>1</sup> “Each Party shall undertake necessary legal and administrative measures for ensuring implementation of the provisions of this Protocol.”

<sup>2</sup> “The Parties shall develop and adopt the Strategic Action Plan targeted on implementation of this Protocol.”

<sup>3</sup> “*Welcome* the adoption and signing of the Protocols on Sustainable Forest Management and on Sustainable Tourism, and call for their timely ratification in accordance with national procedures, and implementation, in collaboration, inter alia with the Food and Agriculture Organization (FAO), the United Nations Forum on Forests (UNFF), the United Nations World Tourism Organization (UNWTO), the Forest Europe Process and other relevant intergovernmental and non-governmental organizations, entities and processes.”

<sup>4</sup> Decision COP3/4 paragraph 2: “*Adopts* the Protocol on Sustainable Forest Management to the Framework Convention on the Protection and Sustainable Development of the Carpathians”

<sup>5</sup> Decision COP3/4 paragraph 3: “*Adopts* the revised Terms of Reference (ToRs) of the Working Group on Sustainable Forest Management”

<sup>6</sup> Decision COP3/4 paragraph 6: “*Requests* the interim Secretariat to coordinate the preparation of a Strategic Action Plan for the implementation of the Protocol on Sustainable Forest Management, taking into account the work done under the auspices of the Working Group”

<sup>7</sup> Decision COP2/13, paragraph 5: “The Conference of the Parties endorses the terms of reference of the Carpathian Convention Implementation Committee, as approved by the Bureau and annexed to the present decision (Annex I)”

<sup>8</sup> Terms of Reference for the Carpathian Convention Implementation Committee: “Serviced by the Secretariat, the Committee shall carry out the following functions: e) To consider, develop and recommend new and additional Protocols, strategies, or other measures and recommendations for the achievement of the objectives of the Convention”

## **Objective 1 - Implementation of policies and/or strategies aiming at sustainable forest management and integration of its objectives into other sectoral policies**

Pursuant to Articles 1, 2, 3 and 6 of the Protocol the Parties shall:

**Action 1. 1.** Assess, develop, adopt and/or update, and implement their national policies and/or strategies aiming at promoting the sustainable management and protection of the Carpathians forests in their national territory, to bring benefits to present and future generation.

### Result expected

*a) Above mentioned policies and/or strategies developed and/or updated, and implemented.*

**Action 1. 2.** Communicate the objectives and provisions of the Protocol to relevant national bodies responsible for, or involved in development or revision of other national sectoral policies, which could have influence on the sustainable management and protection of the forests in the Carpathians and facilitate in-country consultations, to ensure that the objectives of the Protocol are duly taken into account in their national policies. In particular, that they are integrated in those policies on biodiversity conservation, soil protection, rural development, water and river basin management, climate change, tourism, industry and energy, cultural heritage and traditional knowledge conservation, spatial planning, transport and infrastructure

### Results expected

- a) Relevant objectives of the Protocol integrated in relevant national policies;*
- b) Issues relevant for the Protocol considered on the periodic basis by the national state authorities responsible for supervision of the Protocol;*
- c) Regular contacts with the relevant national bodies and update on their activities ensure.*

**Action 1. 3.** Encourage consultations, coordination and cooperation between global and regional institutions, local authorities and stakeholders concerned of each Party, to involve them in the development and implementation of national policies and strategies, and the resulting measures which could have influence on the sustainable forest management and protection in the Carpathians.

### Results expected

- a) Issues relevant for the Forest Protocol included in the agenda of the consultative meetings;*
- b) Cooperation between all stakeholders on sustainable management and protection of forests in the Carpathians strengthened.*

## **Objective 2 – Cooperation at subnational level**

Pursuant to Articles 1, 4 and 26 of the Protocol the Parties shall:

**Action 2. 1.** Define, within its existing institutional framework, the best level of coordination and cooperation between national institutions, regional and local authorities, as well as communities to encourage shared responsibilities in the process of implementation of the Protocol, for example using the available EU sectoral, regional and neighborhood instruments and programs.

**Action 2. 2.** Undertake measures to facilitate the involvement and to promote the participation of regional and local authorities, as well as communities and other stakeholders in the implementation of the Protocol.

**Action 2. 3.** Undertake activities improving involvement of communities, forest owners and managers concerned in the various stages of preparing and implementing national policies and measures.

### Results expected

*a) Activities aimed to improve involvement of communities, forest owners and managers concerned in the various stages of preparing and implementing national policies and measures are implemented;*

*b) Initiatives aimed at raising stakeholders awareness on the importance of sustainable forest management developed.*

### **Objective 3 – International cooperation**

Pursuant to Articles 2, 5, and 16 of the Protocol the Parties shall:

**Action 3. 1** Undertake active transboundary cooperation to better and further implement the objectives of the Protocol, e.g. enforce the Forest management plans and the protection of the forests.

#### Results expected

- a) *Active exchange of relevant information with other Parties ensured;*
- b) *Cooperation for the management of forests including close to nature forestry in Protected Areas ensured and fostered;*
- c) *Measures aimed at granting legal protective status to transboundary Protected Areas adopted.*

**Action 3. 2.** Facilitate the cooperation between regional and local authorities at the international level to involve them and permitting their easy participation. Implement measures seeking to solve shared problems at the most suitable level.

#### Results expected

- a) *New cooperative arrangements between regional and local authorities established, and common implementation of the existing ones enhanced, if necessary;*
- b) *External funding identified and proposal for common projects prepared.*

**Action 3. 3.** Encourage and facilitate active cooperation between relevant international bodies responsible for, or involved in development or revision of other regional or global sectoral policies and strategies, such as the EU macroregional Strategies for Danube (EUSDR) and Black Sea Regions (EUSBSR), which could have influence on the sustainable management and protection of the forests in the Carpathians, to ensure that the objectives of the Protocol are duly taken into account regional and global policies.

#### Results expected

- a) *Cooperation and exchange of information on policies of the Parties related to ecological networks and the forest management objectives and measures ensured and fostered;*
- b) *Regular contacts with the relevant international bodies and update on their activities ensured;*
- c) *Participation of at least one Carpathian representative in relevant international conference/meetings and involvement of the relevant international bodies in the conference/meetings organized within the Convention ensured;*
- d) *Contacts with EU institutions and bodies further developed;*
- e) *Objectives of the Protocol added and adequately integrated in the EU and other relevant funds available for, among others, rural development, biodiversity, regional development, climate change;*

*f) Provisions of the Protocol considered during the development of a Legally Binding Agreement on Forests in Europe and of any other legally binding documents relevant for the region*

Action 3 .4. Develop partnership Agreements between administrations of Protected Areas of the Parties, especially between transboundary protected areas or those located in borderland regions.

Results expected:

*a) Better coordination for implementing appropriate management measures in Protected Areas*

*b) Management and monitoring of the areas identified as ecological networks to facilitate continuity and connectivity.*

## **Objective 4 – Maintaining and enlarging forest cover**

Pursuant to Articles 1 and 8 of the Protocol the Parties shall:

**Action 4. 1.** Take measures to maintain existing forest cover through sustainable forest management and spatial planning.

Results expected

a) *Existing level of forest cover maintained on a level of 2010 year (last FRA) or increased;*

b) *Exchange information and best practices on the measures taken to maintain existing forest cover and prevent deforestation ensured.*

**Action 4. 2.** Take measures, if appropriate, to enlarge forest cover, while taking into account the high ecological importance of habitats of Natura 2000 system and the other goals of the Carpathian Convention and its Protocols.

Results expected

a) *Areas in need of afforestation in the national territory identified;*

b) *Measures to enlarge, if appropriate, forests using mainly native species developed and implemented;*

c) *Consultation and information exchange among the stakeholders on the appropriate measures aimed at increasing forest cover ensured ;*

e) *Exchange information on increasing forest cover in the Carpathian region including on best practices and silvicultural measures is ensured.*

## **Objective 5 – Ensuring the productive functions of the forests and their role in rural development**

Pursuant to Articles 1 and 9 of the Protocol the Parties shall:

**Action 5. 1.** Develop and implement measures aiming at ensuring the productive functions of the forests, and enhance their role in rural development through appropriate policies adapted to the ownership structure and the sound use of wood.

### Results expected

- a) *Forest land property and management rights in the national territories defined and respected;*
- b) *Rural areas and forest owners concerned identified;*
- c) *Source of livelihood of the rural populations clearly identified;*
- d) *Forest land owners and users expectations on ensuring productive function of forest defined;*
- e) *Uses of wood in different local industries outlined;*
- f) *Contribution of forest management and sound use of wood to green economy fostered;*
- g) *Consultation with shareholders and local communities on challenges or constraints to the productive functions of forests conducted;*
- h) *Sound use of wood and non-wood products according to relevant normative documents on sustainable forest management in Carpathians practiced;*
- i) *Sources of income by raising the added value on forest resources promoted and ensured;*
- j) *International support, in accordance with national legislation, to the forest owner and managers and their associations provided.*

**Action 5. 2.** Identify means to support private forest owners and their associations in order to ensure sustainable forest management .

### Results expected

- a) *International and national support, to the forest owners, managers and their associations identified;*
- b) *Measures to reduce possible problems associated with fragmentation of forest land, also through forest land and/or management consolidation developed and implemented, as appropriate.*

**Action 5. 3.** Combat and prevent illegal logging and associated trade through enforcing forest law and other applicable law.

Results expected

- a) *Implement approaches to combat illegal logging and associated trade*
- b) *Sustainable wood supply ensured.*

**Action 5. 4.** Promote sustainable harvesting and marketing of non-wood forest products.

Results expected

- a) *Non-wood forest products and ways of its sustainable use in the Carpathian region commonly defined;*
- b) *Measures on the promotion of the non-wood forest products developed and implemented;*
- c) *Status of sustainable harvesting and marketing of non-wood forest products assessed and protected through adapted strategies.*

**Action 5. 5.** Develop and spread the use of systems of payment for ecosystem services, as appropriate.

Result expected

- a) *Schemes of payments for ecosystems services from forest in the Carpathians developed, including where appropriate a legislative framework;*
- b) *Use of payments of ecosystems services schemes promoted and spread, where appropriate.*
- c) *Measures for identification of forest ecosystem services in Carpathian region taken,*

## **Objective 6 – Management of forests in Protected Areas, as well as identification and protection of natural and especially virgin forests**

Pursuant to Articles 1, 10 and 11 of the Protocol the Parties shall:

**Action 6. 1.** Take measures to identify and protect natural forests and especially virgin forests through establishing national/transboundary Protected Areas in sufficient size and number and/or other specific measures of protection.

### Results expected

- a) *Criteria and indicators for identifying natural and virgin forests harmonized;*
- b) *Work on compiling, analyzing and updating the scientific data, national inventories and maps of natural and especially virgin forests conducted; inventory data of virgin forests based of the format approved by the Parties included in Carpathian Convention joint information system;*
- c) *Virgin forests protected through establishing national/transboundary Protected Areas and/or other specific measures of protection;*
- d) *Commonly agreed definition of sufficient areas adopted by the Parties, if needed;*
- e) *Sufficient areas of all types of identified natural forests from the Carpathian region included in Protected Areas;*
- f) *Improving cooperation among administrations responsible for forest management in Protected Areas in the Carpathians facilitated.*

**Action 6. 2.** Undertake measures aiming at preserving genetic resources of natural forests in the Carpathian region.

### Results expected

- a) *Valuable genetic resources detailed, listed and recognizable in each territory;*
- b) *Policies on preserving genetic resources of natural forests implemented; inherent activities facilitated;*
- c) *Measures on the sustainable use and preservation of genetic resources developed and implemented.*

**Action 6. 3.** Where appropriate, adopt measures to compensate costs or economic losses resulting from measures aimed to protect natural forests and especially virgin forests.

### Results expected

- a) *Economic implications resulting from measures for the protection of natural and virgin forests addressed in the development of compensation schemes, as appropriate;*
- b) *Where appropriate, costs or economic losses caused by the protection of natural forests and especially virgin forests calculated and defined; specific measures to compensate them developed.*

**Action 6. 4.** Ensure the coherence between the Protected Areas management plans and the forest management plans in forest protected areas of the Carpathian region.

Results expected

*b) Coherent Protected Areas management plans, including proper zonations according to forest conservation needs, achieved and implemented for all Protected Areas in the Carpathian region;*

*c) Cooperation on forest management among Carpathian Network of Protected Areas (CNPA) members increased;*

*d) Improving cooperation among administrations responsible for Protected Areas in the Carpathians facilitated;*

*e) Financial programmes to submit project proposals identified and project proposals aimed at improving forest management in Protected Areas, as appropriate, prepared.*

**Action 6. 5.** Implement measures in their national territory with the objective to ensure the long-term conservation or maintenance, protection, restoration and sustainable use of natural forests.

Results expected

*a) Current and potential future threats to the conservation status of natural forests, within the national territory of each Party, identified and assessed;*

*b) Elaborate guidelines for special conservation measures undertaken, if needed, with the objective to ensure the long-term conservation, protection, maintenance, restoration and sustainable use of all types of endangered forests;*

*c) Foreseen activities included in the agenda of the meetings of the common expert networks, such as the Carpathian Convention Sustainable Forest Management Working Group.*

## **Objective 7 – Improvement of the protective forest functions**

Pursuant to Articles 1, 11, 12 and 16 of the Protocol the Parties shall:

**Action 7. 1.** Adopt measures to improve the protective functions of forests in general, such as better preventing floods, soil erosion, landslides, avalanches and rock falls by promoting appropriate forest management methods, to enhance stability and resistance to natural and anthropogenic disturbances.

### Result expected

a) *Experience shared on measures aimed at enhancing forests protective functions;*

b) *Measures aimed at improving protective forest functions adopted for the Carpathian region;*

c) *Improved capacity of forest ecosystems to accomplish protection functions, like soil protection, better water sources, prevention of soil erosion, landslides, torrents and floods and conservation of biodiversity.*

## **Objective 8 – Promotion of close to nature forestry**

Pursuant to Articles 1, 11 and 13 of the Protocol the Parties shall:

**Action 8. 1.** Promote close to nature forestry.

### Results expected

- a) *Programmes for protection and reintroduction of rare native forest tree species in their natural ecosystems established;*
- b) *Experiences on best practices related to close to nature forestry shared among the Carpathian countries;*
- c) *Increased areas where close to nature forestry is applied.*

## **Objective 9 – Improvement of forest-transporting infrastructure of mountain forests**

Pursuant to Articles 1, 3, 9, 14 and 15 of the Protocol the Parties shall:

**Action 9. 1.** Adopt measures to construct new forest roads in mountain forests where necessary and to improve technical condition of the existing roads.

### Results expected:

- a) *Questions of construction of forest roads included in National Forest Program or another national strategic document;*
- b) *Normative documents regulating the parameters of mountain forest roads may be developed and adopted at the national level;*
- c) *Guidelines on planning forest-transporting networks in mountain forests may be developed and adopted at the national level;*
- d) *Experiences shared on the optimization of forest roads network.*

**Action 9. 2.** Adopt measures to improve ways of primary transportation of wood.

### Results expected:

- a) *Experiences shared and projects to promote the use of effective methods of primary wood transportation developed;*
- b) *Optimization of cableway systems increased;*
- c) *Experiences shared on the optimization of network of ways of primary wood transportation.*

## **Objective 10 – Linking forestry, wildlife and ecological network needs in the Carpathian region**

Pursuant to Article 16 of the Protocol the Parties shall:

**Action 10. 1.** Develop and implement sustainable methods to harmonize forest management and wildlife management in the Carpathian region.

### Results expected

- a) Transboundary cooperation aimed at wildlife management strengthened;*
- b) Joint measures in borderland regions developed and adopted;*
- c) Population size of hoofed game controlled;*
- d) Demands of wildlife management taken into account in sustainable forest management.*

## **Objective 11 – Forestry and climate change**

Pursuant to Articles 1 and 14 of the Protocol the Parties shall:

**Action 11. 1.** Adopt measures, policies and/or strategies to enhance the role of forest-based sector and forestry in mitigating climate change. Give a particular attention to find the right balance between increasing carbon stocks in forest ecosystems, promote the use of renewable wood energy, and the sound use of wood products as substitutes of rough materials derived from nonrenewable resources.

### Results expected

- a) *Sound use of wood and best practices increased;*
- b) *Experiences shared on strengthening role of forestry and forest industry in mitigation climate change.*

**Action 11. 2.** Take into consideration the effects of climate change and the increasing vulnerability of forests towards fires and other extreme events due to it, pursuing adaptation policies and measures aiming at increasing the stability and the resilience of the Carpathian forests.

### Result expected

- a) *Strategies and/or policies on adaptation of forests to climate change are developed and/or updated, and further implemented.*

## **Objective 12 – Social functions of the forests**

Pursuant to Articles 1 and 15 of the Protocol the Parties shall:

**Action 12. 1.** Establish effective tools, within the existing institutional framework, to increase coordination and cooperation between the forestry institutions and regional and local authorities concerned with forest management, with the involvement of other local stakeholders, inter alia aimed to enhance use of social function of forests, in particular concerning job creation and increase of employment in the region, improvement of working conditions for conducting forestry operations, preservation of cultural heritage, enhancement of provision of recreational services by forests.

### Results expected

*a) Cooperation between forestry institutions, regional and local authorities concerned with forest management, inter alia, aimed at enhancing use of social forest functions improved;*

*b) Job creation and employment measures taken into account in the sustainable forest management;*

*c) Working conditions for conducting forestry operations improved;*

*d) Cultural heritage of the Carpathian forests preserved;*

*d) Provision of recreational services by forests enhanced.*

**Action 12. 2.** Undertake consideration of the high value of forests for tourism development, while taking into account sustainable tourism policies in forest management planning.

### Results expected

*a) Sustainable tourism policies taken into account in forest management plans;*

*b) Forest zonation and management planning considering the tourism value implemented;*

*c) Forest areas suitable for tourism purposes identified.*

**Action 12. 3.** Take into account cultural heritage and traditional knowledge practices related to forest management, and the fundamental needs of local populations in forest management planning.

### Results expected

*a) Forest zonation and management planning consider the cultural heritage and the fundamental needs of local populations implemented;*

*b) Cultural heritage, traditional knowledge and forest management to promote their common high value, while increasing local populations livelihoods, linked.*

## **Objective 13 – Development of compatible monitoring systems and a joint information system**

Pursuant to Article 17 of the Protocol the Parties shall:

**Action 13. 1.** Cooperate, within the framework of existing international initiatives, on harmonising the forest monitoring in the Carpathians by establishing a joint information system on the ecological state of forests in the Carpathians (according to Art. 12, CC).

### *Results expected*

*a) Information on state of forest and results of national forest monitoring based on the format agreed by the Parties, and integrated in the Carpathian Convention joint information system, regularly updated and accessible on the Party's request.*

## **Objective 14 – Coordinated scientific research and exchange of information**

Pursuant to Articles 1 and 18 of the Protocol the Parties shall:

**Action 14. 1.** Promote and coordinate scientific research and information exchange on Carpathian forests.

### Results expected

a) *Symposia, conferences and meetings to facilitate and ensure scientific information and exchange of practical experience on the sustainable forest management in the Carpathian region organized;*

b) *Information obtain during the scientific research made in the Carpathian forests used for better and further implementation of policies and/or strategies aimed at improvement of sustainable forest management in the Carpathian region;*

c) *Effective information and experience exchange with other Parties on methods listed under Art. 1 paragraph 2 of the Protocol ensured and fostered;*

d) *Results of scientific research jointly provided by the Parties and/or by international organization in the framework of Carpathian Convention in the field of the sustainable forest management are incorporated in the joint information system and accessible through the relevant directory linked to the Convention website;*

e) *Research, scientific and technical cooperation at national, regional and international levels encouraged and improved; interdisciplinary research promoted;*

f) *A common classification of Carpathian forest types at national levels developed and used.*

**Action 14. 2.** Coordinate and cooperate on scientific research undertaken in its territory, or by its scientific institutions.

### Results expected

a) *Effective international cooperation among scientific and other institutions inter alia through the Science for the Carpathians Initiative ensured;*

b) *Common research programs and projects undertaken to improve sustainable forest management in the Carpathians elaborated and implemented;*

c) *Participation of scientists and experts in the common expert networks, such as the Carpathian Convention Sustainable Forest Management Working Group meetings ensured;*

d) *Funds to submit common scientific projects identified, projects prepared and developed.*

## **Objective 15 – Common programs and projects**

Pursuant to Article 19 of the Protocol the Parties shall:

**Action 15. 1.** Undertake active participation, according to the needs and possibilities of each Party, in common programs and projects on activities jointly undertaken in the Carpathians by the Parties.

### Results expected

*a) Joint actions, projects, plans and programmes undertaken and implemented;*

*b) Cooperation, coordination, consultation, discussion and negotiation engaged with the Parties.*

## **Objective 16 – Financial measures**

Pursuant to Article 20 of the Protocol the Parties shall:

**Action 16. 1.** Explore the possibilities of supporting, through fiscal and/or financial measures, the implementation of the provisions of the Protocol, its objectives and all the linked actions and activities undertaken.

*Result expected*

*a) Implementation of the provisions of the Protocol supported through fiscal and/or financial measures.*

**Action 16. 2.** Identify, develop and apply, if needed, appropriate schemes for payment for ecosystem services provided by forests.

*Results expected*

*a) Appropriate schemes for payment for ecosystem services provided by forest identified, developed and applied.*

## **Objective 17 – Education, information and public awareness**

Pursuant to Article 21 of the Protocol the Parties shall:

**Action 17. 1.** Promote the education, information and public awareness on forests in the Carpathians, including cultural heritage and traditional knowledge practices related to forest management.

### Results expected

*a) Education and training courses on sustainable forest management integrated into educational national systems, as appropriate;*

*b) Informational campaigns aimed at promoting society ecological education, raising public awareness on Carpathian forests, including related cultural heritage and traditional knowledge practices, and measures on strengthening of sustainable forest management in the Carpathian region implemented.*

**Action 17. 2.** Ensure the public access to the information deriving from the implementation of the Protocol, taking into account also Aarhus Convention principles and tools.

### Result expected

*a) Information deriving from the implementation of the Protocol in the national websites and the Carpathian Convention website ensured.*

## **Objective 18 – Effectiveness, ensuring implementation of the Strategic Action Plan**

Pursuant to Articles 20, 25 and 26 of the Protocol the Parties shall:

**Action 18. 1.** Take all the needed actions to ensure the implementation of the Protocol in cooperation with other relevant expert networks for the activities within the scope of their competences.

### Results expected

*a) Legal and administrative measures for the implementation of the Protocol are taken*

**Action 18. 2.** Designate a relevant national authority responsible for the implementation of the Protocol and make this information available to other Parties.

### Result expected

*a) State authorities responsible for the Protocol implementation designated and their contact information is published on the Carpathian Convention website*

**Action 18. 3.** Submit to the Secretariat three months prior to each ordinary meeting of the Conference of the Parties a three years report on activities aimed at implementing the Protocol and their effectiveness, on the basis of the format elaborated by the Carpathian Convention Sustainable Forest Management Working Group.

### Results expected

*a) Three years report on activities aimed at implementing the Protocol and their effectiveness are drafted and updated;*

*b) Timely submission of the Report to the Secretariat;*

*c) Report submitted and considered by the Conference of the Parties at their meetings.*
