Transfrontier collaboration for establishment of efficient System for Municipal and Industrial Waste Treatment on the basis of their Sorting (SMIWASTRES)

LETTER OF RECOMMENDATION

To whom it may concern

The Steering Group of the Priority Area 6 "Preserving biodiversity, landscapes and the quality of air and soils", made up of representatives from the Danube countries (nominated by their governments), has pre-examined the project SMIWASTRES ("Transfrontier collaboration for establishment of efficient System for Municipal and Industrial Waste Treatment on the basis of their Sorting") on the basis of a project description form, in which the project relevance for the EUSDR, the project objectives, activities and expected results and further information are described by the applicant (Department of Housing & Communal Service of Chernivtsi Regional State Administration - Ukraine).

The conclusion is:

The project 'SMIWASTRES' contributes to the actions of the EU Strategy for the Danube Region. Hence, the Steering Group - representing the Danube countries - invites the funding sources to consider providing adequate financial support to the project.

Про затвердження плану заходів
щодо стимулювання мікрорегіональної
співпраці, кооперації та інтеграції
**Plan to stimulate the
Interregional Collaboration,
Cooperation & Integration**

2. To provide drawing up Interregional Agreements for Collaboration, Cooperation & Integration
4. To develop Normative-Legal basis and to define mechanisms for Interregional Clusters establishment
5. To draw up Agreements (develop Programs) on collaboration between Ukrainian regions and administrative-territorial units of foreign countries
10. To provide transfrontier cooperation development in the framework of Euroregions
27. To initiate Entrepreneurs Forum in the Euroregion “Upper Prut” for the European principles of Innovation-Investments development implementation

Thematic Synergy

SEE Thematic Capitalisation

There is a wealth of knowledge generated by the 122 transnational partnerships supported by the South East Europe Programme. But while creating synergies between projects and capitalising on results of previous initiatives has been an underlying principle for all approved projects, the approach to do this has not been streamlined so far. In order to respond to this challenge and to a demand from our beneficiaries, the SEE Programme developed a capitalisation strategy that puts projects at the heart of the process. We aim to strengthen the links between projects working on similar topics (“Thematic Poles”), to enable projects to exploit and consolidate one another’s achievements, and create a higher leverage effect. This will enhance the visibility and impact of both projects and Programme. A reinforced and more structured approach to valorise the SEE knowledge base will allow, moreover, to derive invaluable inputs and recommendations in view of the upcoming programming period.

Which are the objectives

COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 4 December 2006

- To valorise and further build upon the knowledge resulting from projects working in a thematic field;
- To fill knowledge-gaps by linking actors with complementary thematic specialization, experiences, methodological approaches or geographical scope;

Action points: Thematic aspects

- enhanced multilateral and bilateral dialogue with ENP partners in key sectors
- consideration of additional multilateral agreements in energy and transport and strengthening of existing ones
- work for the extension of the EU transport and energy networks to neighbouring countries, as well as interoperability
- participation of neighbours in relevant Community agencies and programs

**Conformity between
EUSDR Priority Areas
and Carpathian
Convention
provisions**

Further initiatives

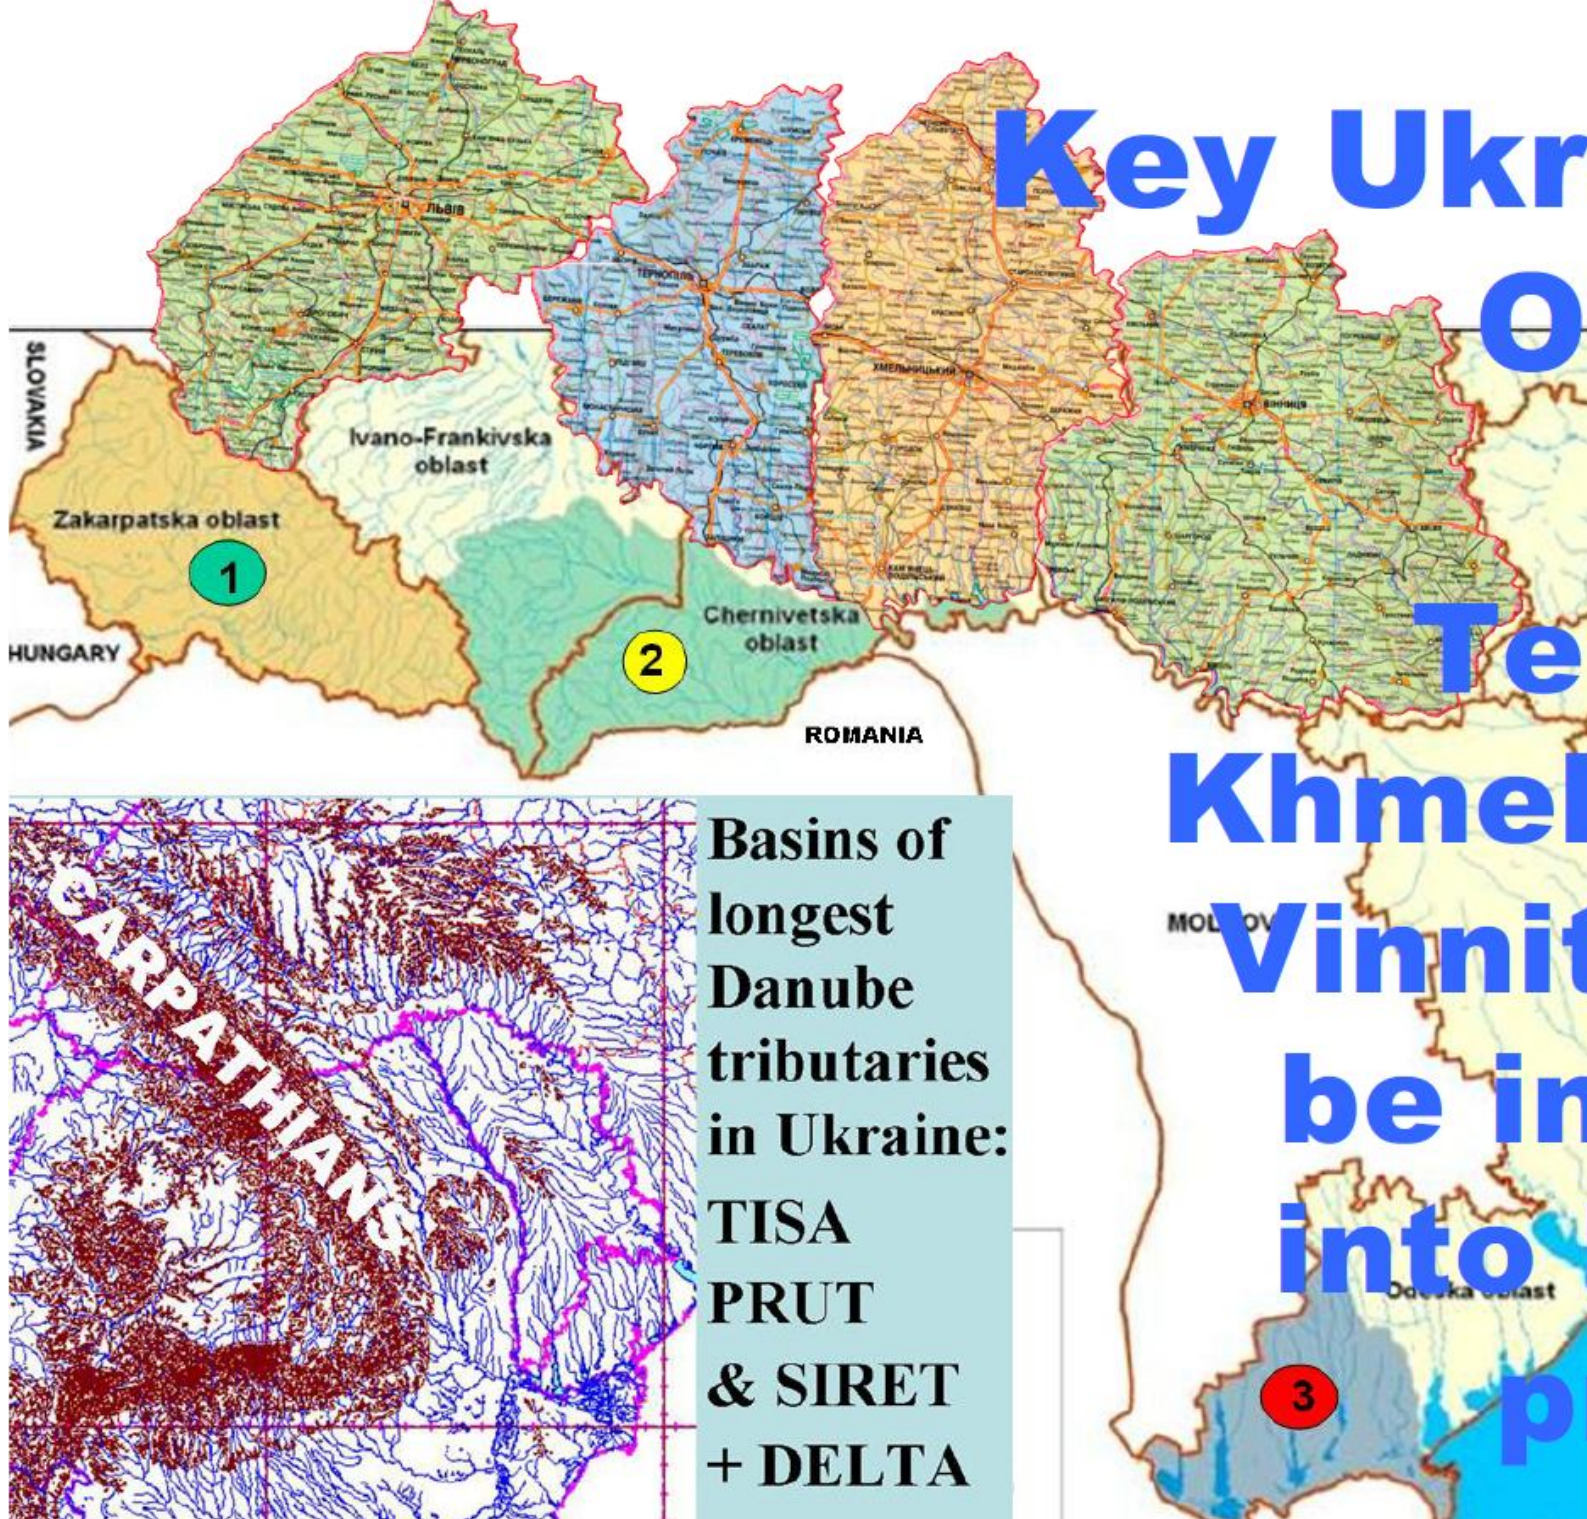

Common initiative

**To spread EUSDR
projects also for
Dniester River Basin in
Ukraine & Republic of
Moldova**

Key Ukrainian Oblasts

Lviv,
Ternopol,
Khmelnytsky,
Vinnitsa will
be involved
into EUSDR
projects
