

CITIZEN SCIENCE in the Carpathians

BUILDING CAPACITIES OF PROTECTED AREAS MANAGERS

Matyáš Adam, 20.5.2021

<http://carpathians.citizenscience.cz/>

About

- Empowering appreciation and pride of local communities in a unique local nature
- In-depth cooperation of local communities with PA management
- Strengthening systematic communication approaches of PA managers through adopting innovative tools
- CS as a powerful tool to stimulate public input and engagement in natural resource, environmental management and policymaking

Citizen Science

- Public participation in answering scientific questions
- Solving conservation challenges - well communicated aims and motivated participants
- Handy intuitive platform

GOALS

- **TO TRAIN**

project partners, PA managers and environmental officers in adopting CS principles and tools

- **TO STIMULATE**

representatives of local communities to contribute to monitoring while using new approaches

- **TO INCREASE**

the interest of inhabitants in local environment through adopting CS apps

- **TO ESTABLISH LIVING LAB**

as a source of experience and knowledge to be transferred to PAs managers

Activities

2020-2022

-  Public workshop on Citizen Science principles and using the tools in practise (CZ)
-  Establishing Living Lab of Citizen Science (HU)
-  E-learning course on Citizen Science
-  Public online symposium
-  Creating communication material
-  Organizing BioBlitzes (V4)
