

# Regenerate Ukraine

May 2023

Ukraine, 2022

**Out of disaster...**

Hope for the future

# A triple challenge

# Opportunity

**€750  
billion**

Ukrainian  
government's initial  
estimate of the 10-  
year cost of  
reconstruction

**Reconstruction**

**Accession**

# Our objective

**Ensure that sustainability is at the core of recovery in Ukraine** – equitable, climate- and nature-positive.

- Advocacy
- Leverage and support others actions
- Own activities

*Org Dev: Ensure that WWF has the capacity and expertise to leverage change.*

**Regenerate Ukraine**

# One initiative, four programs

Regenerate Ukraine is WWF's programme to help restore wildlife and habitats, rejuvenate communities, boost sustainable agriculture and forestry, and future-proof Ukraine.

## MAINSTREAM NATURE

Support decision-making for the future – in Recovery and EU accession.

## GREENING INFRASTRUCTURE

Engage with infrastructure planners & financiers to avoid impact

## INCUBATE THE FUTURE

Enable communities, planners and businesses to accelerate solutions that work with nature

## SAVE UKRAINE'S HERITAGE

Restore and secure Ukraine's natural capital and heritage – its most valuable habitats and ecosystems

1. **MAINSTREAM NATURE** – support decision-making for the future
  - a. Run a platform that provides know-how to policy makers on mainstreaming sustainability and climate resilience into Recovery and EU approximation plans for Ukraine.
  - b. Foster inclusive recovery, particularly through youth engagement
2. **GREEN INFRASTRUCTURE** – Engage with infrastructure planners & financiers to avoid environmental impact
  - a. Bring planning tools in place that enable upstream integrated infrastructure planning
  - b. Incentivise nature- and climate-positive infrastructure investments through future-oriented financing policies
3. **INCUBATE THE FUTURE** – help communities and businesses to accelerate solutions that work with nature
  - a. Identify and develop bankable projects for and with communities and businesses that leverage the power of nature for agricultural production, forestry and climate change adaptation.
  - b. Broker financial support, innovation, know-how development and entrepreneurship for nature-based solutions
4. **SAVE UKRAINE'S NATURAL CAPITAL & HERITAGE** – Restore and secure Ukraine's most valuable habitats and ecosystems.
  - a. Ensure best management regime for protected areas damaged by the war
  - b. Preserve Ukraine's iconic ecosystems and species

# thank you
