

SARD- Meeting

17.3.2021

Input for project ideas

1) Quality and cultural heritage: food supply farm2fork & circular economy

2) Quality schemes and certification of „mountain products“

3) Pastoralism, transhumance and mountain sheepfolds

4) Beekeeping in the mountain area

5) Associations/ cooperatives for farmers and food producers

6) Mountain pedagogical farms and their role in the education of the young people

7) Mechanization of agricultural labor: opportunities and limitations

8) Organisational changes for improving the mountain pastures

Important pillars

1. Quality & Cultural heritage: Transhumance,
2. Management options: low input agriculture
3. Science/policy interface/governmental strategies
4. Diversification: social farming, agritourism, renewable energy, small scale farming
5. Market/distribution channels

Project ideas

1. Transhumance

Cultural heritage

Local products

mechanisation

2. 100% Local

Regional speciality

presented with 100%

local input including

ingredients and

promotion.

100%
Local

3. Local products

- Dairy (Milk and cheese)

- Mushrooms

- Vegetables

- Cerial (Craft beer)

- Honey

Target Group - we are looking for practitioners

- Public and private actors at local, regional and national level, including SMEs (farms?),
- Operators as well as other organisations such as intermediaries, regional development and innovation agencies,
- Environmental institutions, NGOs, education and training organisations as well as universities and research institutes (e.g. Eurac Research)
- Target groups include all population groups including consumers, which will benefit from circular economy solutions.

Interreg Central Europe

Programme map

- Pioneer Projects: highly innovative, concrete solutions, pilot actions on small scale
- Thematically: focused, territorial and thematic coverages like the first call
- Smaller size, shorter duration, existing tools and methods with limited preparatory work
- 3-6 Partner: 12 – 18 Months duration
- One Workpackage only

Interreg Central Europe

- Circular economy value chains
- Clean production processes and closed loop systems
- Sustainable product design (e.g. eco-design) and product development processes
- Behavioural changes of producers, consumers, public buyers etc

Exchanging knowledge and good practices on solutions for clean production processes, in particular in **SMEs**, that consider regenerative circular economy approaches in different sectors (such as electronics, construction and buildings, textiles, plastics, packaging, **food, agriculture**) and testing them in pilot action

SO 2.3: Taking circular economy forward in central Europe

SO 2.3	Air	CC	Water	Soil	Bio	Health	Mater.	Cult	Land
Benefits	+1	+1	+2	+1	+1	+1	+2	/	/
Risks	/	/	/	/	/	/	/	/	/
TB	/	/	/	/	/	/	/	/	/

Project idea: Transhumance

- Cultural heritage
- Local products: labels/markets Circular economy
- Biodiversity / landscape conservation
- Mechanisation / low input agriculture
