RESTORATION OF CLIMATE AFFECTED FORESTS
”Close to people, close to nature”
FORZA - Mission

- support sustainable development of the Carpathian region of Ukraine in the economic, environmental and social aspects of the natural resource management and community development
Objective

- enhancing MFM and promotion of CTN silviculture
- climate change adaptation
- optimizing wood value chain
- promoting forest pedagogy
- achieving critical mass of foresters positive about CTN
Methods used

- non-formal teaching and practical training
- peer exchange
- joint cross-border training events
- stakeholder dialogue
- sharing experiences
- improving the publics’ understanding
Major accomplishments

- close to nature silviculture anchored in the legislation for our region
- large amount of practical foresters trained in close to nature silviculture
- forest sector increasingly opens up to public
- forest pedagogy is well perceived as learning tool about the forest
Priorities for next years

- forest and climate change
- training of foresters in sfm
- wildland fire management support
- outdoor forest education
- keep up the importance of forest topic
